users

800  
professionals  
sensitized

TASDA non-profit organization gathers the actors of well-aging: home professionals, industrialists, users, academics and financiers.

TASDA's multidisciplinary team supports innovative projects by proposing:

#### WATCH & EXPERTISE

of solutions and their assessment

#### SUPPORT TO CHANGE

of medico-social practice and professions

#### SUPPORT FOR INNOVATION

advice, project management from start-ups and companies, research centres or territorial authorities

#### LABORATORY OF USES

to design, develop solutions

#### TRAININGS

TASDA has for many years been developing a **systemic approach** that incorporates the dimension of **sector practices, organizations, information systems and business models**.
